EDITING AND DVD AUTHORIZING

Your videos will be professionally edited. If multiple cameras were used we'll blend the footage together. Effects may be subtle, like cross dissolves, etc... or we may use special effects.

Your DVD may have a menu with scene selection. There is a High Definition, Blu-ray option available. Your menu may have a custom picture or artwork. You'll be able to have multiple menus if you have a lot of scenes. Each song may be a scene. If we covered candid shots and/or an interview then that will be its own scene.

ONLINE

We put your Music Video on YouTube or other Video Sites. We may also make you a website to put your videos on. The 30 Aut Sixx band website is an example of what we may do for you, www.30AutSixx.com.
